About this edition

Appointment Notices Archive

An updated public reference linked to the authoritative live website.

This revised reference explains the Council's public operating approach as of 4 November 2026. It is not a legal amendment, appointment instrument, government accreditation, audit certification, or a replacement for an independently authenticated source. Earlier digitally signed files remain available as historical editions.

SECTION 01

Purpose

The archive provides navigation to public appointment and office notices. It is an index, not a substitute for the underlying appointment decision or the current membership registry.

- A notice should identify the person, role, reference, issuing authority and relevant date when public disclosure is authorised.
- Changes and withdrawals must be reflected in the canonical record.
- Historical notices should remain identifiable as historical.

SECTION 02

Verification and privacy

An appointment claim should be checked using the appropriate current record. Notices should avoid disclosing private identity documents or application materials.

- Do not infer active officeholding from an expired historical notice.
- Publish only approved names, public titles and professional information.
- Keep corrections and superseding decisions linked to the original record.
