About this edition

Corporate & Operational Services

Systems, logistics and administrative service delivery.

This revised reference explains the Council's public operating approach as of 4 November 2026. It is not a legal amendment, appointment instrument, government accreditation, audit certification, or a replacement for an independently authenticated source. Earlier digitally signed files remain available as historical editions.

SECTION 01

Mandate and institutional position

The Operations Administration supports design, digital systems, technical platforms and operational implementation. It maintains digital infrastructure, public platforms, internal systems, visual production and technical delivery required by the Council’s offices and programmes.

- The published remit is a functional description, not a delegation of public authority.
- A named officeholder is displayed only when the underlying member record and publication setting permit it.
- The Office Registry remains the source for current hierarchy and reporting lines.

SECTION 02

Reporting and collaboration

Work is coordinated through documented institutional channels. Different offices collaborate on activities within their designated responsibilities and should not duplicate authority or private records.

- Record the responsible office before launching an external activity.
- Escalate exceptional decisions to the appropriate authorising function.
- Maintain a traceable decision and follow-up record.

SECTION 03

Operational departments

The current public Office Registry lists the following connected departments. Their presence here reflects the publication snapshot; the live organizational chart may change when authorised administrators update the registry.

- Digital Systems: Maintains approved digital platforms, technical systems and operational tooling.

- Design & Media Production: Supports institutional design, visual production and digital publication assets.
- Logistics & Technical Services: Supports technical delivery, logistics and operational requirements.

SECTION 04

Public accountability

A clear organisation chart should be useful to the public without exposing internal security controls or unpublished personal information.

- Publish accurate summaries and authorised role holders.
- Keep historical organisational editions available after substantial revisions.
- Provide a route for correcting obsolete or inaccurate public information.

SECTION 05

Document governance

This document is a public reference edition for navigation and understanding. Current offices and appointments must be checked against the live Council directories.

- The related webpage is the source for live presentation.
- Prior verified PDF editions remain unmodified as archival files.
- The new edition is not an automatic legal amendment to bylaws or appointments.

Document control and use

Record	/documents/records/org-corporate-and-operational-services/
Related page	/organizational-chart.aspx
Current edition	2026.11 | 4 November 2026
Prior edition	The earlier secured PDF is retained as an archival version.
Integrity	SHA-256 is provided in the downloadable sidecar. A digest is not a digital signature.

For binding legal texts, verified appointments, safeguarding decisions or current regional listings, consult the relevant official record and competent issuing office. Public descriptions should not be read as conferring government, consular or diplomatic authority.
