About this edition

Global Moroccan Student Network

A structured connection between Moroccan students, skills and institutional opportunities.

This revised reference explains the Council's public operating approach as of 4 November 2026. It is not a legal amendment, appointment instrument, government accreditation, audit certification, or a replacement for an independently authenticated source. Earlier digitally signed files remain available as historical editions.

SECTION 01

Mandate

The network offers a way to connect students and recent graduates for peer learning, academic exchange, mentoring and relevant international cooperation activities. Participation is voluntary and should not be represented as an academic award or immigration benefit.

- Maintain a clear distinction between confirmed activities and proposed initiatives.
- Use verified partner names only where collaboration is established.
- Provide meaningful opportunities for participants outside major cities.

SECTION 02

Coordination and local activity

Student groups may develop ideas locally while following programme guidance and the applicable host institution's rules.

- Identify a programme lead and local point of contact.
- Record any university permissions, event conditions and safeguarding arrangements.
- Avoid harvesting student data for unrelated commercial or political activities.

SECTION 03

Evaluation and reporting

Report activities through defined indicators, such as attendees, sessions completed and verified follow-up outcomes.

- Collect only necessary consented information.
- Publish results with a period and evidence source.
- Review the programme model before expansion.
