About this edition

Representation Network Development

Stages and safeguards for building a coherent civil-society network abroad.

This revised reference explains the Council's public operating approach as of 4 November 2026. It is not a legal amendment, appointment instrument, government accreditation, audit certification, or a replacement for an independently authenticated source. Earlier digitally signed files remain available as historical editions.

SECTION 01

Development approach

Network expansion is an institutional process, not a count of flags placed on a map. Each new territory requires a responsible contact, lawful local activities and a workable connection to the International Office.

- Start with documented needs and capacity.
- Validate roles before making them publicly visible.
- Use one authoritative record for each person and each representation.

SECTION 02

Operational sequence

Scoping, approval, appointment, activation and review should be identifiable in the record.

- Assign the country representation to its regional coordination line.
- Define the scope of external engagement and required reporting.
- Review activity, conduct and the appropriateness of continued publication.

SECTION 03

Quality measures

Useful indicators include authorised active offices, current appointments, completed reporting and verifiable partner activities.

- Do not count pending proposals as active offices.
- Record changes and discontinued operations.
- Refer readers to the live Network directory for current information.

Document control and use

Record	/documents/records/project-global-representation-network/
Related page	/projects/global-representation-network/
Current edition	2026.11 | 4 November 2026
Prior edition	The earlier secured PDF is retained as an archival version.
Integrity	SHA-256 is provided in the downloadable sidecar. A digest is not a digital signature.

For binding legal texts, verified appointments, safeguarding decisions or current regional listings, consult the relevant official record and competent issuing office. Public descriptions should not be read as conferring government, consular or diplomatic authority.
