About this edition

Youth Mediator

Youth dialogue, early resolution and appropriate referral of concerns.

This revised reference explains the Council's public operating approach as of 4 November 2026. It is not a legal amendment, appointment instrument, government accreditation, audit certification, or a replacement for an independently authenticated source. Earlier digitally signed files remain available as historical editions.

SECTION 01

Purpose

The initiative seeks to widen constructive dialogue and support appropriate responses to non-emergency youth concerns. It is not a court, statutory ombudsman or substitute for a professional safeguarding service.

- State clearly the type of concern the service can receive.
- Use consent and voluntary participation where mediation is appropriate.
- Refer urgent protection, violence or criminal issues to competent services.

SECTION 02

Intake and review

A suitable intake process protects confidentiality and routes issues to trained reviewers without promising that every dispute can be resolved informally.

- Assess safety, competence, conflicts of interest and language needs.
- Explain confidentiality limits and what information may need to be referred.
- Keep private tracking access separated from public progress summaries.

SECTION 03

Outcomes

Where voluntary dialogue is appropriate, the outcome should record agreed next steps without implying legal enforceability beyond what actually exists.

- Keep factual notes and obtain consent to communicate outcomes.
- Offer an escalation or referral route for unresolved issues.
- Use aggregate learning to improve access and programme safeguards.
